Education

- **Koneru Lakshmaiah University, Vaddeswaram** 2022 – 2026
Bachelor of Technology in Computer Science and Engineering (AI & IPA) **CGPA: 8.83**

Certifications

- **AWS Certified Cloud Practitioner**
 - Gained hands-on experience with EC2, S3, IAM, VPC, Lambda, and CloudWatch.
 - Strong understanding of AWS security best practices, pricing models, and cost optimization.
- **Red Hat Certified Enterprise Application Developer (EX183)**
 - Developed Java enterprise applications using JPA, CDI, and RESTful services.
 - Worked with Spring-based microservices, CI/CD pipelines, and container concepts.
- **Salesforce Certified AI Associate**
 - Worked on AI-powered CRM solutions using Salesforce Einstein.
 - Exposure to Apex, Lightning Web Components (LWC), and predictive analytics.

Projects

- **Online Dairy Service**
 - Developed a Django-based web application for ordering dairy products online.
 - Implemented secure authentication, role-based access, and order management.
 - Designed admin dashboard for inventory tracking and product management.
- **Water Quality Detection System (AI/ML)**
 - Built a machine learning model to predict water drinkability using pH and chemical parameters.
 - Implemented Random Forest classifier with model training and evaluation.
 - Developed Flask/Django web interface for manual input and CSV-based predictions.
 - Integrated interactive data visualization using Matplotlib and Plotly.
- **Human Activity Recognition (Deep Learning)**
 - Designed a CNN-based model to classify activities such as Sitting, Walking, Clapping, and Standing.
 - Performed video preprocessing including frame extraction and normalization.
 - Achieved reliable accuracy using supervised learning and model tuning.
- **Flood Prediction using Temporal Fusion Transformer (TFT)**
 - Built a hybrid CNN-TFT model using satellite imagery and time-series weather data.
 - Integrated real-time river level and weather APIs for dynamic prediction.
 - Developed Flask web app with Leaflet.js map showing color-coded flood risk zones.

Technical Skills

- **Programming Languages:** Python, C, Java
- **Web Technologies:** HTML, CSS, JavaScript, React
- **Frameworks:** Django, Flask, Spring Boot
- **Databases:** SQL
- **Cloud & Tools:** AWS, Git
- **Core Concepts:** OOP, Machine Learning, Deep Learning.
